

Aneesh M M

Senior Software Developer | Flutter Developer

Palakkad, Kerala | aneeshmanalathodi@gmail.com | +91 9061842361 | <https://www.linkedin.com/in/aneesh-m-m>

Profile Summary

Flutter Developer with 4 years of experience designing and delivering high-quality mobile applications for Android and iOS. Proficient in Flutter, Dart, Firebase, and API integration, with a focus on performance optimization, clean architecture, and seamless user experiences.

Technical Skills

- Mobile Development: Flutter, React Native.
- Language: Dart, JavaScript, Python, HTML, C#, CSS
- Backend & APIs: REST APIs, Firebase, Custom APIs, GraphQL,
- State Management: Bloc, Provider, Redux, GetX, Riverpod.
- Tools & IDEs: Visual Studio Code, Android Studio, Jira, Git, GitHub/GitLab.
- Methodologies: Agile, CI/CD, Clean Architecture.
- Soft Skills: Problem-solving, Analytical thinking, Teamwork, Client Communication, Team Collaboration.

Professional Experience

Flutter Developer| BlueCS Ltd

March 2026 – June 2026

- Architected and maintained cross-platform Flutter applications for Android and iOS, delivering 90%+ feature parity with optimized performance across both platforms.
- Led end-to-end feature development, conducted comprehensive code reviews, and implemented robust testing and debugging processes, driving significant improvements in code quality and user experience.
- Seamlessly integrated REST APIs, OpenAPI services, WebSocket, Google Maps, Firebase, and third-party SDKs to deliver secure, responsive, and feature-rich applications.
- Implemented GetX state management and a modular architecture, improving application responsiveness by up to 40% and simplifying long-term maintenance.
- Built reusable UI components and shared business logic, reducing feature development time by approximately 30% while ensuring scalable and maintainable code.
- Managed Google Play Store and Apple App Store deployments, including release management, performance optimization, and post-launch maintenance, maintaining a 90% crash-free stability rate.

Senior Software Developer| Manappuram Comptech and Consultants Ltd

July 2022 – September 2025

- Spearheaded the design and development of high-quality, scalable mobile applications using Flutter and React Native, resulting in a 30% increase in user engagement.
- Translated complex UI/UX designs into high-performance, responsive applications, improving user experience across multiple devices.
- Integrated RESTful APIs and third-party services, enhancing application functionality and reducing load times by 25%.
- Optimized application performance and scalability on both iOS and Android platforms, achieving a 40% reduction in crash rates.
- Mentored junior developers through regular code reviews and knowledge-sharing sessions, improving team code quality and development efficiency by 20%.
- Collaborated with cross-functional teams to define, design, and deliver new features, accelerating time-to-market by 15%.
- Published applications to multiple app stores, ensuring full compliance with platform-specific guidelines and standard

Projects

- **Nidhi Mitra – FinTech Banking Application:** Developed a comprehensive Flutter-based fintech application supporting Gold Loan, SD, RD, VRD, TD, Anti-Money Laundering, and other banking modules.
- **E-Commerce Mobile Application:** Built a cross-platform e-commerce application (Blue Era, Riti online) with product catalog, authentication, real-time updates, location services, and secure API integration.
- **Tech:** Flutter, BLoC, Clean Architecture, REST APIs, HTTP, GetX, Dio, Firebase, Google Maps, WebSocket.

Education

Bachelor of Science in Computer Science

March -2020

SNES Kalyani College, Karimpuzha, Palakkad

University of Calicut
