Profile Summary

Senior Flutter Developer with 3+ years of experience specializing in building high-performance, cross-platform mobile applications. Proficient in full mobile development lifecycle, from concept to deployment on Google Play Store and Apple App Store. Expert in Dart, Flutter, state management (BLoC, Provider), REST API integration, and Firebase. Proven ability to lead feature development, collaborate with cross-functional teams, and deliver robust financial solutions.

Technical Skills

- **Mobile Development:** Flutter, Flutter flow, React Native
- **Language:** Dart, JavaScript, python, HTML, C#
- **Backend & APIs:** REST APIs, Firebase, Custom APIs
- **State Management:** Bloc, Provider, Redux
- **Version Control:** Git, GitHub/GitLab
- **Tools & IDEs:** Visual Studio Code, Android Studio.
- **Deployment:** Play store, App store

Professional Experience

Senior Software Developer | Manappuram Comptech and Consultants Ltd July 2022 – September 2025

- Engineered **responsive cross-platform** financial applications using **Flutter & Dart**, delivering features for Term Deposits, Gold Loans, and Savings Accounts across **mobile, tablet, desktop, and web platforms**.
- Architected applications using **Clean Architecture, MVVM, and Bad Row patterns** for scalable state management with **BLoC & Provider**, ensuring maintainable code and responsive UX.
- Built reusable UI components and modular features using a **component-based development** approach to accelerate development and ensure consistency.
- Integrated **REST APIs** and managed **JSON** data models, maintaining a clear separation between data layers and business logic.
- Translated **Figma/Adobe XD** mockups into pixel-perfect, responsive UIs, collaborating with design teams to ensure intuitive user journeys.
- Led the full development lifecycle from concept to deployment, successfully publishing applications to both **Google Play Store** and **Apple App Store**.
- Conducted code reviews and followed **Dart/Flutter best practices** in Agile teams, utilizing libraries including **Hive, Shared Preferences, and Firebase**.
- Implemented **GitHub-based CI/CD workflows** for version management and release automation.
- Utilized **Flutter Flow** for rapid prototyping while maintaining architectural integrity in production applications.

Projects

Nidhi Mithra - Deposits

- **Tech Stack:** Flutter, Flutter flow, Dart, Bloc, REST APIs, Git, C#,
- **Contribution:** Developed critical financial modules (Gold Loan, TD, SD, RD, VRD, PSD,) using Flutter. Focused on building a secure, high-performance application architecture that streamlined customer onboarding and transaction processes
- **Achievement:** Contributed to a platform that enhanced digital financial service delivery for end-users.

Riti-online Application

- **Tech Stack:** Flutter, Flutter flow, Dart, REST APIs, Firebase, Git, C#,
- **Contribution:** Contributed to the development of a cross-platform Riti-online app. Managed the full publication pipeline, including store listing assets, build configuration, and deployment to **Google Play and Apple App Store**.

Internship

Python full stack | Quest Innovative Solutions Ltd

May 2021 – October 2021

- Gained hands-on experience in full-stack web development using Python, Django, and Flask frameworks.
- Assisted in building and maintaining server-side logic and RESTful APIs
- Contributed to full-stack web application features, focusing on database design and frontend-backend integration.

Education

Bachelor of Science in Computer

March - 2020

SNES Kalyani College, Karimpuzha, Palakkad

University of Calicut

Higher Secondary

March- 2017

SPTBS HSS, Adakaputhur, Palakkad

Computer Science
